

All in a Day's Work

Sandra Shipley

DOSA Senior Team Leader

City Hospitals Sunderland

Learning disabilities affect about 1.5 million people in the UK;

Whatever the degree of their disability, each day these people, their relatives and carers face a challenge to maintain their activities of daily living.

We wanted to ensure our patients with a disability received a quality service and to feel an integrated, not segregated part of our department.

And for this service to be provided, **“All in a days work”**

The team recognised that being admitted to hospital for a surgical procedure is often a very frightening and intimidating experience for patients with learning disabilities.

A strange environment and unfamiliar faces can cause agitation, aggression and displays of unpredictable behaviour, resulting in a poor patient experience.

So how could we improve our service?

The team met with Sunderland People First, to identify some of the issues both patients and staff were experiencing.

This resulted in the “easy read” Day Surgery Guide, which is given to patients before their admission dates.

The guide explains the patient journey with pictures and some of the reasonable adjustments which can be made to alleviate any anxieties.

This is used in conjunction with the patients personal care passport.

Day Surgery

easy read

This is about going to hospital for a small operation.
You may go home the same day.

This factsheet will tell you what will happen
if you need to have day surgery.

This is me My Care Passport

- This document was developed for Sunderland Clinical Care Commissioning Group by the Learning Disability Nurse Team based at CHS
- It is completed and kept by the patient/carer
- The passport gives important information about the patient's likes and dislikes, important information to them and safety measures for the patient and is used for every visit to the Surgical Day Case Unit

This is me My Care Passport

It should be kept with me and brought with me into any care setting, including hospital.

My name is:

I like to be known as:

Please return my passport to me when I go home.

This is essential reading for all staff working with me. It gives important information about me. This passport should be kept visible and used when you talk to me or think about me.

Things you must know to keep me safe

Things that are important to me

My likes and dislikes

This passport is as a pdf file that can be typed into, saved and updated using Adobe Acrobat Reader. Go to: www.sunderlandactionforhealth.co.uk to download it free of charge. You could also print it off and write on it.
