# The organisations

YHW empowers people with a voice in Northamptonshire and nationally and, is all about local voices being able to influence the delivery and design of services. Not just people who use them, but anyone who might need to in future.

The 2 acute hospitals serve a population of approximately 700,000 and between the 2 sites have around 1400 beds, providing a multitude of specialist services to Northamptonshire and surrounding areas.

# What happened?

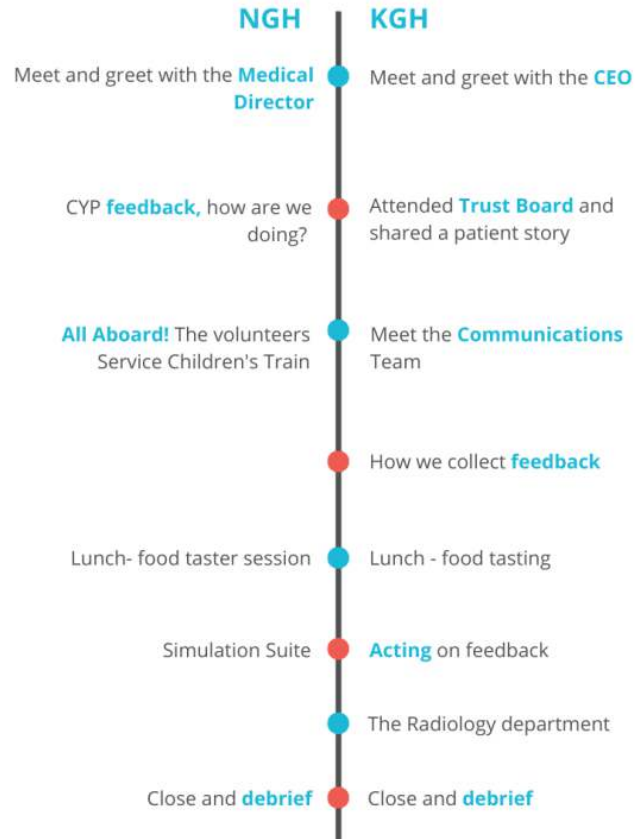

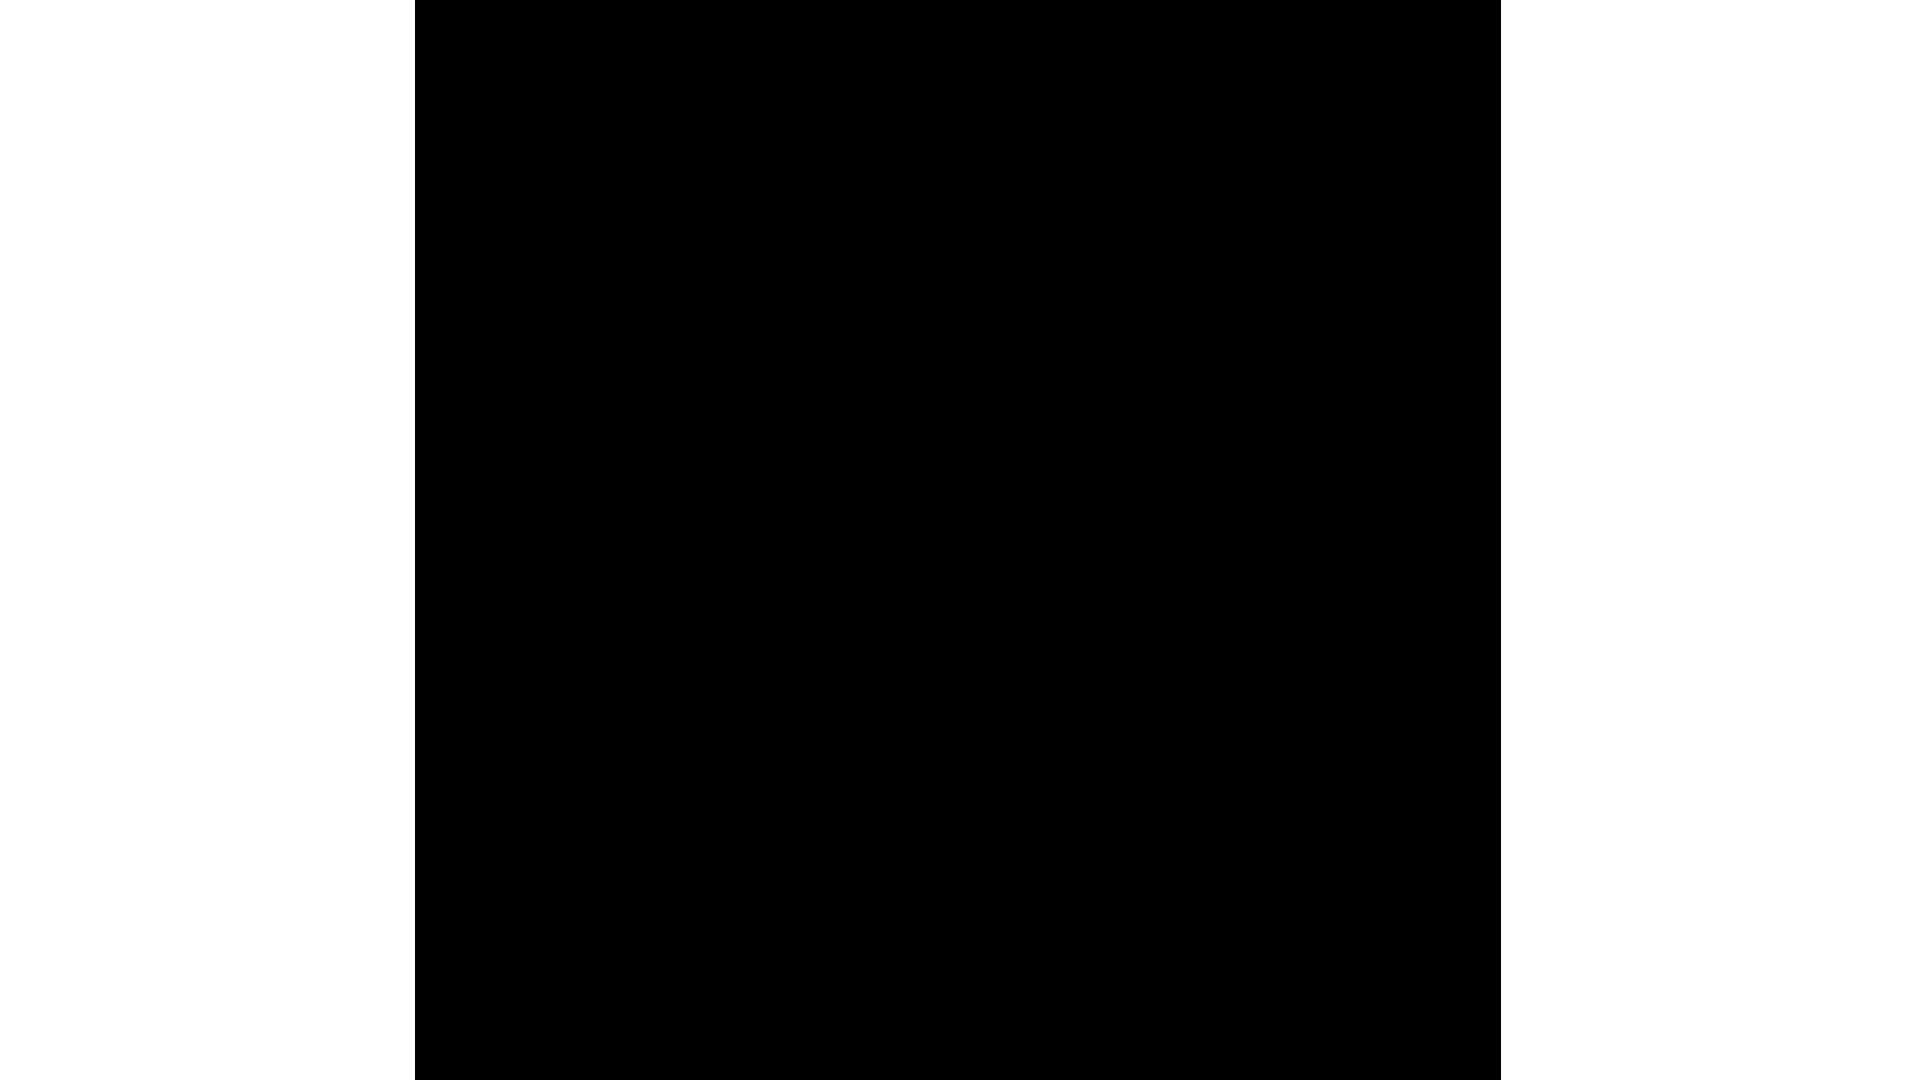

YHW identified who would like to take part in the day and what they were interested in.

Each hospital produced an agenda for the day with YHW

# On the day

# Next steps

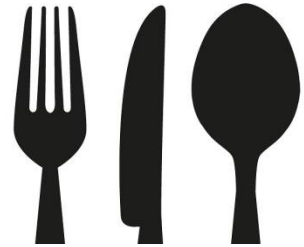

Our feedback tells us that we need to communicate better and involve young people more in their care.

KGH have commissioned YHW to develop and deliver training to the staff

Both hospitals have worked with YHW on the new FFT
