Our services...

Adults

**Children and Young
People**

Older People

Learning disabilities

Forensic and Secure

making a

difference

together

Where we were....

- 
- Manually download survey responses from devices across the whole of the trust and upload onto the managed system.

- **3 staff – 2 working days**

- 
- Manually process (cut and paste) and sentiment code and categorise in excess of 2,000 narrative comments per month.

- **1.5 staff – 2 working days**

- 
- Access in excess of 800 pie chart reports from an external shared folder and copy them onto the Trust shared area (all teams had at least 2 reports).

- **1 staff – 2 working days**

- 
- Total of **11 working days**
 - Delay in reporting and making results available – always a month behind on all Trust reports

What we
wanted.....

Real time
reporting

Automated
alerting

Dissemination of
good practice

Customised views of
information

Action
planning

CQC/Commissioning
evidence

**DRIVE
IMPROVEMENT**

making a

difference

together

What we did...

- Procured the **Meridian System** provided by **Optimum Health Technology**.
- **Meridian** is an internet-based, technological approach that enables the use of feedback to improve services through its data collection, dissemination, reporting and action planning functions.
- The system went live on 01 April 2017 after five months of planning.

making adifferencetogether

How we did it...

● Set up a Steering Group

- PaCE Team
- Meridian team
- Trust IT staff
- Service representatives
- Input from staff and service users

● Communication

- Virtual Lead Network
- Key Message Bulletins
- Trust E-bulletin
- Face to Face Training
- Briefings to management meetings, wards & teams

making a

difference

together

Where we are now....

- 
- Results from electronic devices/SMS text & e-mail upload automatically onto the new system

- **0 staff – 0 working days**

- 
- Results from completed paper surveys are available within 2 days of receipt.

- **0 staff – 0 working days**

- 
- Narrative comments are accessed direct on the system, sentiment coded and categorised on a daily basis.

- **1 staff – 45 minutes per day**

- 
- Total of **2 working days**

- Instant access to results, real-time reporting/feedback

making a

difference

together

Impact on service users and staff

- A wide range of surveys and collection methodologies to support service user preference

- Easy access for ward & team managers to their “live” results

- Easy access to results for Heads of Service/Locality Leads to see what is happening across their area of responsibility

- An improved patient & carer experience as staff can act on poor feedback much quicker

making a

difference

together

Between April 17-Jan 18

17,442

Patients and parent-carers completed
the **Friends & Family** test survey

15,318

14%

making a

difference

together

In April – Dec 17

19,714

Comments/suggestions for improvement
were left by patients and carers

12,460

58%

making a

difference

together

And.....

TEWV has had the highest number of FFT returns nationally in the mental health category every month (bar 2) since reporting commenced in January 2015.
