Wording

The card will contain the following message...

'We understand that when looking back you may have questions about your loved one's final illness or the treatments and care they needed. We would like to offer you the opportunity to discuss these questions with a senior nurse or one of the doctors either by a phone call or in person. If you would like to discuss anything or have any comments about the care or indeed anything you think we could do differently please call the Bereavement Team on 01752 439492. They will be able to contact the matron on your behalf who will arrange someone to get in touch with you'.

With best wishes
