Recommend for Care	71	75	74	79	78	81	82	83	?
Recommend for Work	56	59	58	62	64	66	72	72	?

Improving Staff FFT scores in line with Trust emerging from turnaround - trend also reflected in NHS Staff Survey results

# Our extended FFT

Early Staff FFT correlation work at Bolton showed that certain factors were having more of an influence patient experience

A. How likely are you to recommend this Trust to friends and family if they needed care or treatment

B. How likely are you to recommend this Trust to friends and family as a place to work?

1. I am able to make suggestions to improve the work of my team / department.
2. There are frequent opportunities for me to show initiative in my role.
- 3. I am able to make improvements happen in my area of work.**
4. Care of patients / service users is my Trust's top priority.
5. I look forward to coming to work and am enthusiastic about my job.
- 6. I receive recognition and appreciation from my line manager for the work that I do.**
7. I know what is expected of me in my role.
8. I am able to participate in training & learning activities that support my career development.
9. I have been treated fairly and consistently in the last 3 months.
10. How likely are you to recommend your Department/Speciality to friends and family as a place to work?

VISION OPENNESS INTEGRITY COMPASSION EXCELLENCE

Overall Meridian score for this question: 52.78%  
(based on 9 responses)

Distribution of results

- 22.22% Always
- 22.22% Nearly Always
- 11.11% Most of the Time
- 33.33% Some of the Time
- 11.11% Never

# Key Learning Points

- Staff FFT questions can be easily extended & deployed as a local pulse survey
- There is value in quantifying the specific factors that link staff & patient experience at the local level
- Manual correlation of data can provide a ‘proof of concept’ before investing in technology
- Single-device feedback capture makes it easier to identify trends & design staff experience interventions
