

TEAM OF THE YEAR Award Presentation

Cancer Support Team, Calderdale and
Huddersfield NHS Foundation Trust

**‘CO-PRODUCTION: WHAT MATTERS
MOST TO YOU, DIAGNOSIS
THROUGH TO END OF LIFE?’**

Our Aims Today:

- ▶ Patient Story – showcasing personalised support in the pandemic
- ▶ Patient Co-design – adapting and extending patient education and support in a virtual context
- ▶ Collaboration and sharing best practice

1. Larry's Story –personalising support from diagnosis

Supporting a 57 year old black, homeless man diagnosed with stomach cancer, April 2021.

Larry's Feedback

2. Co-production to improve patient experience

Involvement as
a Patient Rep
Volunteer and
part of the
Cancer Patient
Focus Group.

PATIENT
CO-DESIGN

Rob's Feedback

- Virtual **First Steps** Programme for newly diagnosed patients
- Virtual **Support Groups**
- Virtual **Thinking Ahead** Programme
- **End of Treatment** virtual events
- Input to a **Cancer App** for patients

3. Collaboration and sharing best practice with others

- **Prehabilitation collaboration**
- **Collaboration** with the **Trust IT team.**
- Collaboration with **psychology and information governance** teams regarding consent and information sharing.
- **Adoption of our First Steps Programme** by other trusts regionally and nationally.

- **Co-ordination and delivery of a collaborative virtual Thinking Ahead (TA) Programme** across three Trusts.
- Planning with the **Cancer Alliance** regarding sharing TA.
- One of 5 trusts nationally to **pilot the iHOPE programme**.
- **NHSE webinar** presentations to showcase patient co-design.

We work together, with our patients leading the way, to provide the best possible care and support for our patients and their carers...

Thank you for listening
