An introduction to our organisation

The Royal Wolverhampton NHS Trust:

- Provides a comprehensive clinical portfolio of community, secondary and tertiary services
- Serves an ethnically diverse population of 450,000 people
- Has a workforce of around 10,000 staff, covering more than 350 different roles
- Our Patient Experience Enabling Strategy (2022 - 2025), supports and empowers all staff to put the patient experience at the heart of everything they do

- We have an established Voluntary Service within RWT with infrastructure for recruiting, training and supporting RWT volunteers, which has been in operational since 2007. At our highest number, we have had in excess of 400 active volunteers registered.
- Volunteers managed by a small team, enhance existing Social Prescribing service across the city, targeting individuals and communities affected by the long term effects of Covid-19 and resulting Health Inequalities, in terms of addressing **physical health,** **mental health and wellbeing,** and **reducing isolation and loneliness,** which we hope may in turn relieve some pressures on frontline NHS services.

So how does it work?

But that's not all...

Commissions of between £1,000 and £5,000 are available to organisations to support grass roots and community groups.

£87,000 already given to support small community groups such as:

- **Wolves Play Café**
 - **BME Housing Consortium**
 - **Magical MC**
 - **Social Steam Engine**
 - **Mandem Meetup W'Ton**
 - **Secret Angels**
 - **Wolves Disabled Supporters**
 - **Wild Campers Against Waste**
- 

MANDEM MEETUP

The Mission

At Mandem Meetup, we're actively building a haven of confidentiality, brothers in distress, and a community of solid souls with relatable, real-life problems to collide and collectively empower one another.
