Dementia UK is a registered charity
in England and Wales (1039404)
and Scotland (SC 047429).

Dementia: What Next ?

- Is a service accessible to all, the live webinars are free providing education and information.
- Facilitated by team of specialist nurses,
- Tailored clinical advice as well as practical, psychological and emotional support.

Planning and delivery

Why?

- Increased demand for specialist advice, rising numbers of people affected by dementia
- Families feel “abandoned” post-diagnosis and unsure where to turn.
- Lack of clarity around who to contact and when
- Pressure on existing services post covid

What?

Three core themes identified.

- What is dementia?
- Financial and legal advice
- Planning for the future

Creating the look:

Each session is 90mins duration and comprises of:

- Introduction
- Pre-recorded video played, participants having the option to ask questions in the chat box.
- Live Q&A session held at the end of the session
- Attendees are sent a copy of the presentation following the sessions (even if they don't attend)

Evaluation

Each attendee receives a feedback survey so that we can continue to improve.

- Since Nov. 2024, 4000 people have registered for the sessions.
- 2000 people have attended in real time.

What do we need to do next

- Review length of sessions
- Provide additional information for specific geographical areas
- Review “inclusivity” (hearing and sight loss)
- Continuous review of feedback and actions taken where appropriate.

Evidence: What do we now know

- Sessions can be replicated
- Knowledge sharing, empowering people via information and education
- Sessions are accessible for all
- Costs and resources are minimal to the service

Thank you for listening
